

Corporate Compliance Program

The mission of the CHJC Corporate Compliance Program is to educate and inform all staff and the Board of Directors of federal, state, and local regulations. In addition, we will provide the guidelines necessary to enable health care providers and employees of CHJC to fulfill their obligations in an ethical and honest manner.

The Corporate Compliance Program will encourage and promote an environment where suspected fraud, abuse, waste, improper or illegal activities can be anonymously reported by anyone without fear of retaliation. CHJC Corporate Compliance further commits to thoroughly investigate any allegations, impose a plan of correction, and recommend warranted disciplinary action.

A centralized information resource will be available to all faculty and staff. In an effort to achieve compliance with established programs, regulations, and guidelines, CHJC Corporate Compliance will also function as a resource to individuals and departments for assistance in meeting the requirements of the compliance program.

To anonymously report a suspected concern, please call 315-777-9230.
